

PROFILE

After studying and briefly working in Manchester, I took the opportunity to accept a position in Bristol, bringing me back to my roots in the West Country.

My stay in Bristol came to an end when opportunities to further my knowledge and experience beckoned firstly in Winchester and then Newbury. Having worked for larger practices, I am now responding to a long-held desire to work for a smaller practice, with a hands-on approach in all aspects.

INTERESTS

Rugby and football (spectator only now).
 Reading and listening to Jazz.
 Life drawing (drawing, painting and exhibiting).
 Collecting American Comics

PHILOSOPHY

Define Space Limited was born in response to seeing a gap in the market for high quality architectural services for small works.

My experience in larger commercial projects has expanded our ability to view projects at both micro and macro scale. The same meticulous planning and thought process that has been applied to major developments is now brought to all our projects, both large and small.

ROBERT JAMES

DIRECTOR
